Objectives

1. To find and identify persons who has sufficient quality, capacity, courage and methodology in local communities to become community leaders and entrepreneurs
2. To create an independent, transparent, objective linkage between the community entrepreneurs and the Scientific Board and the Directorate Board of CENDI

Responsibilities of the Board

1. To find unique products from each ethnic groups and localities
2. To identify cultural identities, local knowledge, native species which are foundation of unique products
3. To record and make documentations of unique products and endangered species in order to suggest relevant solutions
4. To promote community initiatives in order to attain intellectual copyrights and trademarks
5. To organize study tours and exchange of local knowledge and unique products to raise awareness of ecological products and fair trade
6. To enhance linkages in research and application through experimental nurseries and promotion of intellectual copyrights and trademarks
7. To strengthen networking between local ecological producers and relevant networks, such as LandNet, MECO-ECOTRA and YIELDS

Working mechanism

1. The Board members participate and work in the network in a voluntary manner.
2. CENDI cover cost for travelling, food, overnight for the members' work.
3. The Board members are responsible to collect indigenous seeds and local knowledge to create booklets and create experimental nursery and agro-forestry gardens
4. The Board members are responsible to suggest seminars and forums on challenges of indigenous seeds and special products and apply for CENDI support.
5. The Board members suggest CENDI staff to build up projects. After a time of capacity building, the Board members will be responsible to identify issues from communities to build up small projects
6. CENDI pays all-day health insurance for the members of the Board.

ACTION PLAN 2015-2020

I. Preserve H're 'Ghe' wine

Violak village, Kon Tum province

- Research 'Ghe' wine of H're people in Po E commune, Kon Tum province.
- Organize meeting among experienced people to identify
 - Values of 'Ghe' wine
 - Current situation of 'Ghe' wine production and consumption
 - Materials for the wine production (Blo vine for making ferment, Hroa sticky rice and Jring rice)
 - Solutions for preservation and promotion of 'Ghe' wine
- Evaluate diversity and values and effects of 'Ghe' wine
 - Spiritual values
 - Effects on health
 - Effects on land, water and forests
- Cooperate with local authority and CENDI to complete profile to apply for intellectual copyright and trademark of 'Ghe' wine.
- Implementing time: 2015-2020.

II. Promote Red Dao's maternal herbal bathing shampoo Sa Xeng village, Sai Duan commune, Lao Cai province

- Plan and discuss with villagers to get community consent
- Select knowledgeable persons and healers to have agreement on the plan
- Organize village meeting to identify valuable herbs which need to preserve and grow
- Select endangered and rare species and valuable wooden trees to grow
- Select enthusiastic and active persons to take care of the grown herbs and trees
- Set up a ground and building for herbal processing, bathing and produce products. This also creates training space for awareness sharing and traditional education for young generation
- Registering for protection of the intellectual copyright and trademark of the Se Xeng herbal bathing shampoo of the Red Dao.
- Implementing time: 2015-2020
